COTTON MARKETS.

New York, August 1.—The cotton market ruled generally firm to-day as the result of continued drought in the Southwest, improvement in the cotton goods market and expectations of a government report on Theeday showing a deterioration approximating 5 per cent. The close was steady at a net advance of iglp points.

The market opened steady, August and September 2g2 points lower and new crop positions generally 1g5 points higher. In the absence of cables, attention was centred on weather and crop accounts. Over Sunday reports, both official and private, failed to show more than an unimportan break in Southwestern drought conditions, Oklahoma having a few scattered showers, while Texas remained dry and hot. Local press reports indicated that rain is urgently needed within a few days if material deterioration is to be prevented. The firmer tendency of the accident was given impetus also by improved demands for cotton and yarn goods, particularly among Southern mills, where a large business is alleged to have been refused recently on account of failure of buyers to raise prices. Local selling was aggressive at times, apparently in an effort to force liquidation before the publication of the government report, but these offerings were promptly absorbed, largely by trade interests, and prices moved slowly uping spot cotton from sicks owned by the Southern built operators. The aver-

# JULY STATEMENT OF U.S. TREASURY

Uncle Sam Has Total of \$1,733-057,808 of Cash in His

of cash in the Treasury of \$1,733,057, 808, a total balance in the general fund of \$92,356,224; a working balance in the Treasury offices of \$30,502,824. and a decrease of \$503,136 in the public debt during July is the way the monthly Treasury statements show the situation to-day.

The total ordinary receipts for July

the situation to-day.

The total ordinary receipts for July were \$58,817,953, and the disbursements \$68,411,709, exclusive of disbursements of \$4,441,558 for the Panama Canal and of \$1,726,582 on account of the public debt and of disbursements of \$2,230,019 on that account The excess of all disbursements over all receipts is \$14,533,451 against an excess of \$18,637,874 in all disbursements over all receipts in July, 1909

The total ordinary receipts, which mean those outside of the canal and the public debt, were approximately \$5,000,000 greater than in July of last year, while the ordinary disbursements were approximately \$1,100,000 more than the same comparative date. The latter increase is partially accounted for by the \$1,300,000 more than the same comparative date. The latter increase is partially accounted for by the \$1,300,000 more paid on the census the past month than in the previous July. The corporation tax, aggregating \$6,117,256 this month, helped to account for the increased receipts.

The customs receipts of \$25,051,511 market falling off of virtually \$3,600,000 from July of last year, attributable in part at least to the rush of importations just prior to the passage of the tariff bill last summer. The internal revenue, outside of the corporation tax, amounted this month to \$23,464,469, which is approximately \$2,256,000 more than during the previous July.
